Ways to Reduce Cost to Photographer:

Printing photographs and mounting and framing them can all be expensive. There are some ways to reduce the cost of the whole process. Here are some suggestions:

- * If you have a color printer at home you can purchase photo paper at Office Depot, Staples, Meijers, etc and print your own at home.
- * Have the photograph printed somewhere else and then you attach it to a matt board or foam board cut to the same size with spray adhesive (from Michaels, JoAnnes or other craft stores).
- * Sign up with Walgreens, CVS, Meijer or Costco, etc at their photo dept. Easily done online. They will send discount coupons for printing almost every week. You can upload your photos, select size and pick them up at a nearby store. I like Walgreens as they have 40% off prints (no quantity limit) a few times a month.
- * Watch Sunday papers for circulars for Michaels or JoAnnes (craft stores). They often have 50% off coupons for items. Buy a precut matt at the reduced price and behind your photo include a same size mat or foam board. You create 3 layers: the precut mat on top, your photo and behind it the backing board. (Walmart and Meijers also sell standard size precut mattes.
- *With enough lead time, thrift stores, garage or estate sales often have inexpensive frames for sale. Purchase them often for less than \$5. Frames are not required for submission of photos, but they do improve the presentation.
